

# GD100 Basic Policy and Guidelines for Action on the Environment

## GD100 Basic Policy on the Environment

Following the principle of “dealing fairly with society and valuing harmony with the environment,” we shall assert world-class strengths in technologies for protecting the environment.

- Continued improvement of environmental management
- Action to combat global warming
- Contribution to creation of a sustainable recycling society

## GD100 Guidelines for Action on the Environment

For the sake of future generations and this irreplaceable planet,  
we shall act to protect the environment.

### Practice of global environmental management

We will adopt consistent, high-level environmental management practices at all operations worldwide.

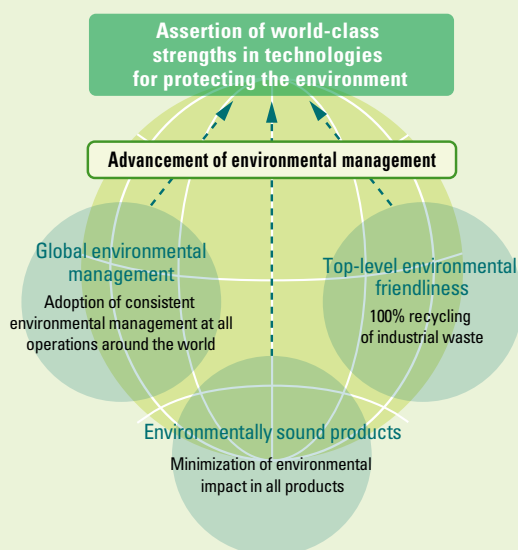

### Contribution to society through manufacturing

We will take action to minimize the environmental impact in all products.

### We will take action to protect the environment as a duty to society by practicing top-level environmentally conscious production.

All industrial waste will be recycled.

### Improvement of communication with society and local communities

### Recognition by society(April 2007 to May 2008)

- Selected for inclusion in SRI's "FTSE Good Global Index" for the third year running (May 2007)
- Hamatite Division and Tire Material Development Department double winners of the 3R Promotion Council President's Award (October 2007)
- Manufacturing Division ranked 19th in Nikkei Inc.'s "Environmental Management Index Survey" (December 2007)
- Mie Plant awarded the Chairman's Award in the industrial category of the Japan Cogeneration Center Awards (May 2008)
