

CSR Slogan “Caring for the Future”

Under the GD2020 medium-term management plan, we must aim to become a global enterprise that is able to successfully develop localized business operations throughout the world. We will create value through business activities based on our CSR Slogan, “Caring for the Future.”

SDGs

SDGs (Sustainable Development Goals) as common global goals which should be achieved by 2030 that were adopted by all 193 UN member countries at the United Nations Sustainable Development Summit in September 2015. 17 goals and 169 targets have been set as guiding principles for achieving sustainable development on a global level including the elimination of poverty and preservation of the natural environment with everyone around the world including citizens, governments, and companies working together to achieve by 2030.

Relationship between SDGs and Caring for the Future

Corporate Governance

Lay a solid foundation for supporting sustainable business activity in accordance with international norms.

Products

Deliver products and services that help people enjoy fulfilling lives with peace of mind.

The Earth

Address environmental concerns through our operations and help leave a sound natural environment to future generations.

People

Nurture values accommodating diversity in the workplace and in the community at large.

Community

Earn the confidence of neighbors through robust community engagement.

Raising awareness on SDGs at the company

Global HR Department provides employee training programs at various steps such as when employees join the company or are promoted. Training on CSR is an important part among these programs. We conduct training aiming to understand our CSR vision and be able to incorporate it in their work as required of each important step of their life course, such as when entering the company, five years after entering the company, before and after being promoted to a management position, or before an assignment overseas for our employees.

For a new employee training in 2018, even most participants had heard of SDGs for the first time in training, they gained a better understanding of the importance of addressing SDGs through business activities and about the company's CSR efforts through group work.

SDGs group work in new employee training
